2. The present system for producing the major military estimates seems to work well. We have no plans to change it and will continue to invite DIA officers to serve in the process as they have in the past.

3. Dick has already discussed the question of Assistant National Intelligence Officers with []. If suitably qualified individuals are available, we would like DIA to fill a vacancy for an Assistant NIO in Strategic Programs in the next couple of months and possibly in the Near East and General Purpose Forces later this year.
